

# SEA FISHING

Tino García is one of Lanzarote's veteran deep sea fishermen with over thirty years of experience trolling around the rich Canary waters. His vast knowledge of the different species of fish and their habitat found in this area, makes him the ideal skipper.

The specially designed boats - the Mizu I and Mizu II - are perfect for trolling, shark and bottom fishing, and are outfitted with modern electronic detection devices and the finest fishing gear.

By the way, aside from great navigational skills, Tino can cook up a terrific fisherman's lunch on board!
